Financial Statements Review

January 1 – December 31, 2021

Valmet’s Financial Statements Review January 1 – December 31, 2021

Orders received increased to EUR 4.7 billion and Comparable EBITA to EUR 429 million in 2021

Figures in brackets, unless otherwise stated, refer to the comparison period, i.e. the same period of the previous year.

October–December 2021: Comparable EBITA margin was 12.2 percent

- Orders received increased 16 percent to EUR 1,093 million (EUR 940 million).
  - Orders received increased in the Paper, Services and Automation business lines, and decreased in the Pulp and Energy business line.
  - Orders received increased in South America and EMEA (Europe, Middle East and Africa), and decreased in China, Asia-Pacific and North America.
- Net sales remained at the previous year’s level and amounted to EUR 1,199 million (EUR 1,167 million).
  - Net sales increased in the Automation, and Pulp and Energy business lines, and remained at the previous year's level in the Services and Paper business lines.
- Comparable earnings before interest, taxes and amortization (Comparable EBITA) were EUR 147 million (EUR 146 million), and the corresponding Comparable EBITA margin was 12.2 percent (12.5%).
- Earnings per share were EUR 0.67 (EUR 0.67).
- Items affecting comparability amounted to EUR 8 million (EUR 0 million).
- Cash flow provided by operating activities was EUR 96 million (EUR 114 million).

January–December 2021: Orders received increased 30 percent and Comparable EBITA margin reached the target range at 10.9 percent

- Orders received increased 30 percent to EUR 4,740 million (EUR 3,653 million).
  - Orders received increased in all business lines.
  - Orders received increased in South America, Asia-Pacific, EMEA and North America and decreased in China.
- Net sales increased 5 percent to EUR 3,935 million (EUR 3,740 million).
  - Net sales increased in the Paper business line, and remained at the previous year's level in the Pulp and Energy, Services and Automation business lines.
- Comparable earnings before interest, taxes and amortization (Comparable EBITA) increased and were EUR 429 million (EUR 365 million), and the corresponding Comparable EBITA margin was 10.9 percent (9.8%).
  - Comparable EBITA increased due to higher gross profit.
- Earnings per share were EUR 1.98 (EUR 1.54).
- Items affecting comparability amounted to EUR 19 million (EUR -10 million).
- Cash flow provided by operating activities was EUR 482 million (EUR 532 million).

Dividend proposal

The Board of Directors proposes for the Annual General Meeting that a dividend of EUR 1.20 per share be paid. The proposed dividend equals 61 percent of the net result.

Guidance for 2022

Valmet estimates that net sales in 2022 will increase in comparison with 2021 (EUR 3,935 million) and Comparable EBITA in 2022 will increase in comparison with 2021 (EUR 429 million).

Short-term market outlook

Valmet estimates that the short-term market outlook for energy has improved to satisfactory (previously weak). Valmet reiterates the good short-term market outlook for services, automation, pulp, and board and paper, and the satisfactory market outlook for tissue.

The short-term market outlook is given for the next six months from the end of the reported period. It is based on customer activity (50%) and Valmet's capacity utilization (50%), and the scale is 'weak–satisfactory–good'.

President and CEO Pasi Laine: Orders received increased to EUR 4.7 billion and Comparable EBITA increased for the eighth consecutive year in 2021

"Valmet's orders received increased to EUR 4.7 billion in 2021. Orders received increased in all business lines. The very active market demand for our board making technologies continued. Furthermore, we made several important pulp technology delivery agreements, for example in Finland, Brazil and China. The market for our services and automation solutions recovered compared to last year and both businesses returned to growth track.

Our net sales amounted to EUR 3.9 billion in 2021. Net sales increased in the capital business and remained at previous year's level in the stable business, meaning the Services and Automation business lines. Comparable EBITA increased 18 percent to EUR 429 million, and was 10.9 percent of net sales.

Valmet and Neles announced in July 2021 the plan to combine the two companies through a merger. The Extraordinary General Meetings of both companies approved the merger in September 2021. The completion of the merger is pending the needed regulatory approvals and is targeted to occur on April 1, 2022. Until the completion of the merger Valmet and Neles will carry out their respective businesses as separate and independent companies."

Merger with Neles

On July 2, 2021, Valmet announced that the Boards of Directors of Valmet Oyj and Neles Corporation have signed a combination agreement and a merger plan to combine the two companies through a merger. Both companies held an Extraordinary General Meeting on September 22, 2021, and both EGMs approved the merger. The completion of the merger was expected to occur on January 1, 2022, subject to all conditions for completion being fulfilled. On November 5, 2021, Valmet announced that due to the regulatory review processes taking longer than previously estimated, the completion of the merger was targeted to occur on or before April 1, 2022. As the completion has not yet taken place, the next possible date under the combination agreement for the completion to take place is April 1, 2022. The planned closing date may be delayed due to the regulatory processes ongoing. Should the closing be delayed from April 1, 2022, Valmet will issue a stock exchange release on the matter and the merger prospectus will be supplemented once there is more clarity on the timetable of the regulatory processes. Until the completion of the merger Valmet and Neles will carry out their respective businesses as separate and independent companies.

News conference and webcast for analysts, investors and media

Valmet will arrange a news conference in English as a live webcast at https://valmet.videosync.fi/2021-q4 on Thursday, February 3, 2022, at 2:00 p.m. Finnish time (EET). President and CEO Pasi Laine and CFO Kari Saarinen will be presenting the results.

Recording of the webcast will be available shortly after the event at the same address.

It is possible to take part in the news conference through a conference call. Conference call participants are requested to dial in at least five minutes prior to the start of the conference at

Finland +358 981710310
United Kingdom +44 3333000804
France +33 170750711
Germany +49 6913803430
Norway +47 23500243
Sweden +46 856642651
United States +1 6319131422

The participants will be asked to provide the conference PIN: 36008682#

All questions should be presented in English.

The event can also be followed on Twitter at www.twitter.com/valmetir.

Important notice

The merger of Valmet and Neles Corporation ("Neles") and the merger consideration securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "U.S. Securities Act"), and may not be offered, sold or delivered within or into the United States, except pursuant to an applicable exemption of, or in a transaction not subject to, the U.S. Securities Act.

The information in this report is not directed to, or intended for distribution to or use by, any person or entity that is a citizen or resident of, or located in, any locality, state, country or other jurisdiction where such distribution or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction and it does not constitute an offer of or an invitation by or on behalf of, Valmet, or any other person, to purchase any securities.

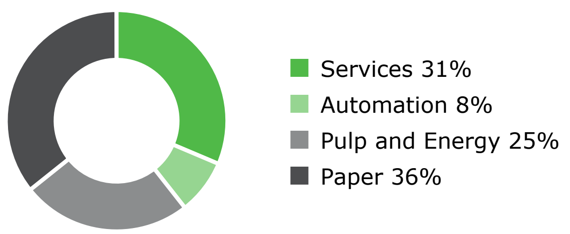
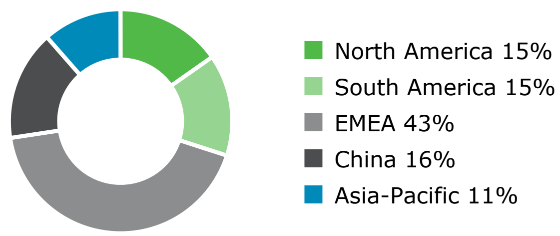
Orders received by business line, 2021



Orders received by area, 2021



October–December 2021: Orders received increased to EUR 1,093 million

Orders received increased 16 percent to EUR 1,093 million (EUR 940 million) in October–December. The Services and Automation business lines together accounted for 45 percent

(47%) of Valmet's orders received. Orders received increased in the Paper, Services and Automation business lines, and decreased in the Pulp and Energy business line.

Orders received increased in South America and EMEA, and decreased in China, Asia-Pacific and North America. Measured by orders received, the top three countries were Brazil, Sweden and the USA, which together accounted for 42 percent of total orders received. The emerging markets accounted for 48 percent (39%) of orders received.

Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased orders received by approximately EUR 15 million in October–December.

During October–December, Valmet received among others an order for a major technology and automation delivery for a pulp mill's modernization project in Brazil, an order for an extensive recycled fiber line and paper machine grade conversion rebuild in Germany, typically valued at around EUR 90–100 million, an order for a long-term Performance Agreement and a board machine rebuild in Sweden, typically valued at around EUR 70–80 million, and an order for Old Corrugated Containers, stock preparation and OptiConcept M container board making lines to Turkey, typically valued at around EUR 60–70 million.

January–December 2021: Orders received increased in all business lines

Orders received increased 30 percent to EUR 4,740 million (EUR 3,653 million) in 2021. The Services and Automation business lines together accounted for 39 percent (46%) of Valmet's orders received. Orders received increased in all business lines.

Orders received increased in South America, Asia-Pacific, EMEA and North America and decreased in China. Measured by orders received, the top three countries were China, Finland and Brazil, which together accounted for 42 percent of total orders received. The emerging markets accounted for 52 percent (49%) of orders received.

Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 15 million in year 2021.

In addition to the above-mentioned, in year 2021, Valmet received among others an order for all main process islands and automation for a bioproduct mill in Finland, valued at about EUR 350–400 million, an order for a major pulp and board technology delivery to Brazil, typically valued at around EUR 320–360 million, an order for coated board and fine paper making lines to China, typically valued at around EUR 190–220 million, an order for coated board making and BCTMP production lines to Asia, typically valued at around EUR 200 million, an order for key pulp technology to China, typically valued at around EUR 140 million, an order for a container board making line to Turkey, typically valued at around EUR 90–110 million, an order for a biomass power boiler and a flue gas cleaning system to Japan, typically valued at around EUR 70 million, and tissue line orders from Turkey, China and Russia.

Order backlog increased 26 percent during the year and amounted to EUR 4.1 billion

Order backlog, EUR million	**As at December 31, 2021**	As at December 31, 2020	Change	As at September 30, 2021
Total	**4,096**	3,257	26%	4,199

Order backlog amounted to EUR 4,096 million at the end of the reporting period, which is at the same level as at the end of September 2021 and 26 percent higher than at the end of December 2020. Approximately 25 percent of the order backlog relates to stable business (Services and Automation business lines, approximately 25% at the end of December 2020). Approximately 70 percent of the order backlog is currently expected to be realized as net sales during 2022 (at the end of December 2020, approximately 75% was expected to be realized as net sales during 2021).

Net sales increased to EUR 3.9 billion in 2021

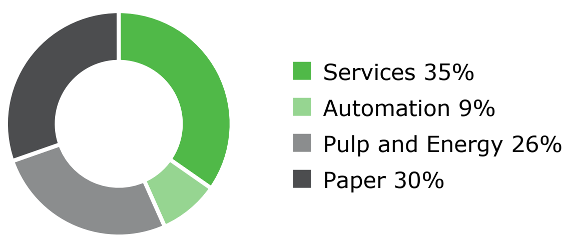
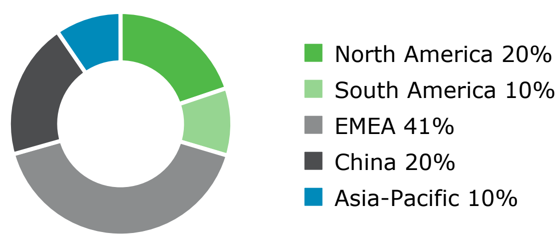
Net sales by business line, 2021



Net sales by area, 2021



October–December 2021: Net sales amounted to EUR 1,199 million

Net sales remained at the previous year’s level and amounted to EUR 1,199 million (EUR 1,167 million) in October–December. The Services and Automation business lines together accounted for 46 percent (44%) of Valmet’s net sales. Net sales increased in the Automation, and Pulp and Energy business lines, and remained at the previous year's level in the Services and Paper business lines.

Net sales increased in China, EMEA and North America, and decreased in South America and Asia-Pacific. Measured by net sales, the top three countries were China, the USA and Finland, which together accounted for 49 percent of total net sales. Emerging markets accounted for 46 percent (46%) of net sales.

Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 18 million in October–December.

January–December 2021: Net sales increased in the Paper business line

Net sales amounted to EUR 3,935 million (EUR 3,740 million) in year 2021. The Services and Automation business lines together accounted for 43 percent (44%) of Valmet’s net sales. Net sales increased in the Paper business line, and remained at the previous year's level in the Pulp and Energy, Services and Automation business lines.

Net sales increased in China and North America, remained at the previous year's level in EMEA, and decreased in South America and Asia-Pacific. Measured by net sales, the top three countries were China, the USA and Finland, which together accounted for 46 percent of total net sales. Emerging markets accounted for 46 percent (46%) of net sales.

Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased net sales by approximately EUR 5 million in year 2021.

Comparable EBITA and Operating profit

In October–December, comparable earnings before interest, taxes and amortization (Comparable EBITA) were EUR 147 million, i.e. 12.2 percent of net sales (EUR 146 million and 12.5%).

In 2021, Comparable EBITA were EUR 429 million, i.e. 10.9 percent of net sales (EUR 365 million and 9.8%). Comparable EBITA increased due to higher gross profit.

On EBITA, Valmet’s investment in Neles had a positive impact of EUR 4 million in October–December and EUR 14 million in 2021.

Operating profit (EBIT) in October–December was EUR 143 million, i.e. 11.9 percent of net sales (EUR 135 million and 11.6%). Items affecting comparability amounted to EUR 8 million (EUR 0 million).

Operating profit in 2021 was EUR 399 million, i.e. 10.1 percent of net sales (EUR 319 million and 8.5%). Items affecting comparability amounted to EUR 19 million (EUR -10 million).

On Operating profit, Valmet’s investment in Neles had no material impact in October–December or in 2021.

Net financial income and expenses

Net financial income and expenses in October–December were EUR -1 million (EUR -3 million). In 2021, net financial income and expenses amounted to EUR -3 million (EUR -11 million).

Profit before taxes and earnings per share

Profit before taxes for October–December was EUR 142 million (EUR 133 million). The profit attributable to owners of the parent in October–December was EUR 100 million (EUR 100 million), corresponding to earnings per share (EPS) of EUR 0.67 (EUR 0.67).

In 2021, profit before taxes was EUR 395 million (EUR 307 million). The profit attributable to owners of the parent was EUR 296 million (EUR 231 million), corresponding to earnings per share (EPS) of EUR 1.98 (EUR 1.54).

Valmet's investment in Neles had no material impact on the financial result in October–December or in 2021.

Return on capital employed (ROCE) and return on equity (ROE)

In 2021, the return on capital employed (ROCE) before taxes was 24 percent (22%) and the return on equity (ROE) was 24 percent (21%).

Business lines

Services: Orders received increased and net sales remained at the previous year's level in Q4/2021

Services business line	**Q4/2021**	Q4/2020	Change	**2021**	2020	Change
Orders received (EUR million)	**388**	342	13%	**1,488**	1,356	10%
Net sales (EUR million)	**415**	402	3%	**1,366**	1,327	3%
Personnel (end of period)				**5,958**	6,027	-1%

In October–December, orders received by the Services business line increased 13 percent to EUR 388 million (EUR 342 million). Services accounted for 36 percent (36%) of Valmet's orders received. Orders received increased in all areas except for China, where orders received decreased. Orders received increased in Board, Paper and Tissue Solutions, Fabrics and Performance Parts, and remained at the previous year's level in Pulp and Energy Solutions and Rolls. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased orders received by approximately EUR 8 million.

In 2021, orders received by the Services business line increased 10 percent to EUR 1,488 million (EUR 1,356 million). Services accounted for 31 percent (37%) of all orders received. Orders received increased in all areas except for EMEA, where orders received remained at the previous year's level. Orders received increased in all businesses except for Rolls, where orders received remained at the previous year's level. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 8 million.

Net sales for the Services business line amounted to EUR 415 million (EUR 402 million) in October–December, corresponding to 35 percent (34%) of Valmet's net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 7 million.

In 2021, net sales for the Services business line amounted to EUR 1,366 million (EUR 1,327 million), corresponding to 35 percent (35%) of Valmet's net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased net sales by approximately EUR 7 million.

COVID-19 related travel restrictions and lower capacity utilization in graphical paper mills impacted Services' business environment during 2021. Towards the end of the year, the Services business line was affected by reduced component availability and longer delivery times of certain components.

Automation: Orders received and net sales increased in Q4/2021

Automation business line	**Q4/2021**	Q4/2020	Change	**2021**	2020	Change
Orders received (EUR million)	**104**	96	8%	**381**	334	14%
Net sales (EUR million)	**132**	117	14%	**339**	335	1%
Personnel (end of period)				**1,986**	1,917	4%

In October–December, orders received by the Automation business line increased 8 percent to EUR 104 million (EUR 96 million) and accounted for 10 percent (10%) of Valmet's orders received. Orders received increased in all areas except for EMEA, where orders received decreased. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased orders received by approximately EUR 1 million.

In 2021, orders received by the Automation business line increased 14 percent to EUR 381 million (EUR 334 million). Automation accounted for 8 percent (9%) of Valmet's orders received. Orders received increased in all areas except for South America, where orders received remained at the previous year's level. Orders received increased in Pulp and Paper and remained at the previous year's level in Energy and Process. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 2 million.

Net sales for the Automation business line amounted to EUR 132 million (EUR 117 million) in October–December, corresponding to 11 percent (10%) of Valmet's net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 1 million.

In 2021, net sales for the Automation business line amounted to EUR 339 million (EUR 335 million), corresponding to 9 percent (9%) of Valmet's net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased net sales by approximately EUR 2 million.

COVID-19 caused access restrictions to some customer sites, which impacted Automation's business environment during 2021. Towards the end of the year, the Automation business line was affected by reduced component availability and longer delivery times of certain components.

Pulp and Energy: Orders received decreased and net sales increased in Q4/2021

Pulp and Energy business line	Q4/2021	Q4/2020	Change	2021	2020	Change
Orders received (EUR million)	**240**	291	-17%	**1,178**	934	26%
Net sales (EUR million)	**307**	286	7%	**1,036**	1,003	3%
Personnel (end of period)				**1,946**	1,814	7%

In October–December, orders received by the Pulp and Energy business line decreased 17 percent to EUR 240 million (EUR 291 million). Pulp and Energy accounted for 22 percent (31%) of Valmet's orders received. Orders received increased in South America, and decreased in all other areas. Orders received decreased in both Pulp and Energy. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 5 million.

In 2021, orders received by the Pulp and Energy business line increased 26 percent to EUR 1,178 million (EUR 934 million). Pulp and Energy accounted for 25 percent (26%) of all orders received. Orders received increased in all areas except for China, where orders received decreased. Orders received increased in Pulp and remained at the previous year's level in Energy. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 5 million.

Net sales for the Pulp and Energy business line amounted to EUR 307 million (EUR 286 million) in October–December, corresponding to 26 percent (25%) of Valmet’s net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 3 million.

In 2021, net sales for the Pulp and Energy business line amounted to EUR 1,036 million (EUR 1,003 million), corresponding to 26 percent (27%) of Valmet’s net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 2 million.

The Pulp and Energy business line has managed challenges caused by COVID-19 well, and therefore the pandemic did not cause major impacts on its operations during 2021.

Paper: Orders received increased and net sales remained at the previous year's level in Q4/2021

Paper business line	Q4/2021	Q4/2020	Change	2021	2020	Change
Orders received (EUR million)	**360**	211	71%	**1,694**	1,029	65%
Net sales (EUR million)	**345**	362	-5%	**1,195**	1,076	11%
Personnel (end of period)				**3,708**	3,731	-1%

In October–December, orders received by the Paper business line increased 71 percent to EUR 360 million (EUR 211 million) and accounted for 33 percent (22%) of Valmet's orders received. Orders received increased in EMEA, South America and Asia-Pacific, and decreased in China and North America. Orders received increased in Small and Medium size Machines, Stock Preparation and Recycled Fiber, as well as in Board and Paper, and decreased in Tissue.

Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased orders received by approximately EUR 11 million.

In 2021, orders received by the Paper business line increased 65 percent to EUR 1,694 million (EUR 1,029 million). Paper accounted for 36 percent (28%) of all orders received. Orders received increased in South America, Asia Pacific and EMEA, remained at the previous year's level in North America and decreased in China. Orders received increased in Stock Preparation and Recycled Fiber, as well as in Board and Paper, and decreased in Tissue. Small and Medium size Machines contributed EUR 78 million to orders received. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 decreased orders received by approximately EUR 1 million.

Net sales for the Paper business line amounted to EUR 345 million (EUR 362 million) in October–December, corresponding to 29 percent (31%) of Valmet’s net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 7 million.

In 2021, net sales for the Paper business line amounted to EUR 1,195 million (EUR 1,076 million), corresponding to 30 percent (29%) of Valmet’s net sales. Changes in foreign exchange rates compared to the exchange rates for the corresponding period in 2020 increased net sales by approximately EUR 2 million.

The Paper business line has managed challenges caused by COVID-19 well, and therefore the pandemic did not cause major impacts on its operations during 2021.

Cash flow and financing

Cash flow provided by operating activities amounted to EUR 96 million (EUR 114 million) in October–December and EUR 482 million (EUR 532 million) in 2021. Net working capital totaled EUR -673 million (EUR -595 million) at the end of the reporting period. Change in net working capital in the statement of cash flows was EUR -51 million (EUR -46 million) in October–December and EUR 76 million (EUR 160 million) in 2021. Payment schedules of large capital projects have a significant impact on net working capital development.

Cash flow after investments totaled EUR 71 million (EUR 40 million) in October–December, and EUR 382 million (EUR -60 million) in 2021. In 2021, acquisitions had a cash flow impact of EUR -15 million. Investments in Neles shares had a cash flow impact of EUR -456 million in 2020. The acquisition of PMP Group had a cash flow impact of EUR -48 million in the fourth quarter of 2020.

At the end of December, gearing was -7 percent (13%) and equity to assets ratio was 42 percent (39%). Interest-bearing liabilities amounted to EUR 477 million (EUR 497 million), and net interest-bearing liabilities totaled EUR -88 million (EUR 149 million) at the end of the reporting period.

The average maturity of Valmet’s non-current debt was 4.2 years, and average interest rate was 0.9 percent at the end of December. Lease liabilities have been excluded from calculation of these two key performance indicators.

Valmet’s liquidity was strong at the end of the reporting period, with cash and cash equivalents amounting to EUR 517 million (EUR 274 million) and interest-bearing current financial assets totaling EUR 47 million (EUR 73 million).

Valmet announced on October 20, 2021, that it has signed a new EUR 300 million syndicated revolving credit facility agreement, which matures in 2024 with two 1-year extension options dependent on the approval of the banks concerned. The facility refinances the earlier EUR 200 million credit facility and its margin will be partly adjusted based on Valmet's progress in meeting its Climate program targets. Valmet's liquidity was additionally secured by an uncommitted and unused commercial paper program worth of EUR 200 million.

In compliance with the resolution of the Annual General Meeting, on April 7, 2021, Valmet paid out dividends of EUR 135 million, corresponding to EUR 0.90 per share.

Financing of the merger with Neles

In order to support and finance the completion of the merger with Neles, on July 2, 2021, Valmet entered into re- and back-up financing agreements comprising of EUR 695 million term loan facilities.

On October 6, 2021, Valmet cancelled the EUR 345 million back-up term loan facility, as the amount of cash redemption demands made at the Extraordinary General Meeting of Neles on September 22, 2021, was minor.

On October 20, 2021, Valmet announced that it has closed the syndication regarding the EUR 350 million term loan facilities that were signed on July 2, 2021. The term loan facilities will be used to refinance part of the existing indebtedness of Valmet and Neles in connection with the merger.

The merger with Neles is still subject to obtaining of merger control and other regulatory approvals. Until the completion of the merger Valmet and Neles will carry out their respective businesses as separate and independent companies.

Capital expenditure

Gross capital expenditure (excluding business combinations and leased assets) totaled EUR 28 million (EUR 24 million) in October–December, of which maintenance investments were EUR 10 million (EUR 9 million).

In 2021, gross capital expenditure (excluding business combinations and leased assets) totaled EUR 97 million (EUR 89 million), of which maintenance investments were EUR 39 million (EUR 36 million).

Acquisitions and disposals

Acquisitions

On July 1, 2021, Valmet announced that it had completed the acquisition of EWK Umwelttechnik GmbH and ECP Group Oy following the agreements that were announced on June 10, 2021. EWK Umwelttechnik is a German company manufacturing and supplying air emission control systems and after-installation services. The company employs approximately 50 employees and had net sales of approximately EUR 22 million in 2020. ECP Group is a manufacturer and maintainer of electrostatic precipitators (ESP), focusing on power plants and pulp and paper industry, in Finland. Net sales of ECP Group were approximately EUR 6 million in 2020 and it employs around 20 employees.

EWK Umwelttechnik and ECP Group have been consolidated into the Group financials as of July 1, 2021. EWK Umwelttechnik is reported under the Pulp and Energy business line and ECP Group under the Services business line.

Disposals

Valmet made no disposals during January–December 2021.

Merger with Neles

On July 2, 2021, Valmet announced that the Boards of Directors of Valmet Oyj and Neles Corporation have signed a combination agreement and a merger plan to combine the two companies through a merger. Both companies held an Extraordinary General Meeting on September 22, 2021, and both EGMs approved the merger. The completion of the merger was expected to occur on January 1, 2022, subject to all conditions for completion being fulfilled. On November 5, 2021, Valmet announced that due to the regulatory review processes taking longer than previously estimated, the completion of the merger was targeted to occur on or before April 1, 2022. As the completion has not yet taken place, the next possible date under the combination agreement for the completion to take place is April 1, 2022. The planned closing date may be delayed due to the regulatory processes ongoing. Should the closing be delayed from April 1, 2022, Valmet will issue a stock exchange release on the matter and the merger prospectus will be supplemented once there is more clarity on the timetable of the regulatory processes. Until the completion of the merger Valmet and Neles will carry out their respective businesses as separate and independent companies.

Research and development

Valmet's research and development (R&D) expenses in 2021 amounted to EUR 82 million, i.e. 2.1% percent of net sales (EUR 75 million and 2.0%). Research and development work is carried out predominantly in Finland and Sweden, within the business lines' R&D organizations and pilot facilities. In addition, research and development takes place within a network of customers, suppliers, research institutes and universities. In the end of 2021, R&D employed 471 people (457 people).

Valmet's R&D work is based on customers' needs, such as improving production and resource efficiency, maximizing the value of raw materials, providing new revenue streams, and developing new innovations and technologies.

Valmet develops competitive, leading production and automation technologies and services. To enhance raw material, water and energy efficiency in its customers' production processes, Valmet combines digitalization, process technology, automation and services. Valmet also develops solutions for replacing fossil materials with renewable ones and for producing new high-value end products.

Personnel by business line as at December 31, 2021

Personnel by area as at December 31, 2021

During 2021, Valmet employed an average of 14,163 people (13,615). The number of personnel at the end of December was 14,246 (14,046). Personnel expenses totaled EUR 948 million (EUR 891 million) in 2021, of which wages, salaries and remuneration amounted to EUR 750 million (EUR 713 million).

Impacts of the COVID-19 pandemic on Valmet

The COVID-19 pandemic impacted Valmet's operations during 2021. COVID-19 related travel restrictions and lower capacity utilization in graphical paper mills impacted Services' business environment. Many customers restricted access to their sites, which led to disturbances especially in field services and mill improvement projects. Also the Automation business line was negatively impacted by access restrictions to some customer sites. Towards the end of the year, the Automation and Services business lines were affected by reduced component availability and longer delivery times of certain components.

The Pulp and Energy, and Paper business lines have managed challenges caused by COVID-19 well, and therefore the pandemic has not caused major impacts on the capital business. The organization has performed well under the new circumstances and found new ways to operate, which can be utilized to improve Valmet's and customers' processes also after the pandemic.

On November 24, 2020, Valmet announced that due to financial and production related reasons, especially because of the decreasing workload, the company was to start co-determination negotiations for temporary lay-offs in Finland on November 24, 2020. The employees under negotiations were Services business line's employees in Finland and the employees of the EMEA area organization in Finland. The lay-offs were estimated to last up to 90 days at maximum and to concern around 360 employees.

On December 2, 2020, Valmet announced that the co-determination negotiations have been completed, and as a result altogether 372 employees, 227 in the Services business line and 145 employees in the EMEA area organization in Finland were to be temporarily laid-off due to low workload. The lay-offs concerned all employee groups. The lay-offs were to be implemented until the end of April, 2021, and the scope and length of a lay-off varied up to 90 days at maximum per person.

Changes in Valmet's Executive Team

Valmet announced on November 19, 2020, that Mr. Jukka Tiitinen (M.Sc., Eng.) has been appointed Area President of Valmet's North America Area as of April 1, 2021. Until then, he was employed at Valmet as Area President, Asia Pacific. Jukka Tiitinen continues as a member of Valmet's Executive Team reporting to President and CEO Pasi Laine. Mr. David King, the former Area President, North America, retired after a long, successful career at Valmet as of March 31, 2021.

Valmet announced on February 5, 2021, that Mr. Petri Paukkunen (B.Sc., Eng.) has been appointed Area President, Asia Pacific Area at Valmet as of April 1, 2021. Until then, he was employed as Vice President, Board and Paper Mills business unit in Valmet's Paper business line. Petri Paukkunen became a member of Valmet's Executive Team and reports to President and CEO Pasi Laine.

Strategic goals and their implementation

Valmet is the leading global developer and supplier of technologies, automation and services for the pulp, paper and energy industries. Valmet focuses on delivering technology and services globally to industries that use bio-based raw materials. Valmet's main customer industries are pulp, paper and energy. These are all major global industries that offer growth potential for the future. Valmet is committed to moving its customers' performance forward.

Valmet's vision is to become the global champion in serving its customers, and its mission is to convert renewable resources into sustainable results. Valmet seeks to achieve its strategic targets by pursuing the following Must-Win initiatives: 'customer excellence', 'leader in technology and innovation', 'excellence in processes' and 'winning team'.

Valmet's product and service portfolio consists of productivity-enhancing services, automation solutions, plant upgrades and rebuilds, new cost-efficient equipment and solutions for optimizing energy and raw material usage, and technologies increasing the value of our customers' end products.

To improve operational excellence, Valmet is in the process of renewing its ERP system. The aim is to improve Valmet's operational capability through process harmonization and standardization, and through renewal and modernization of the ERP platform.

Valmet has an annual strategy process, where, among others, Valmet's strategy, Must-Wins and financial targets are reviewed.

Valmet's financial targets are the following:

Financial targets

- Net sales for stable business to grow over two times the market growth
- Net sales for capital business to exceed market growth
- Comparable EBITA: 10–12%
- Comparable return on capital employed (pre-tax), ROCE: at least 20%
- Dividend payout at least 50% of net profit

Continued focus on improving profitability

Valmet continues to focus on improving profitability through various actions in e.g. sales process management, project management and project execution, in procurement and quality, as well as in technology and R&D.

To improve sales process management, Valmet is focusing on key account management and analyzing the customers' share of wallet. Valmet is targeting market share improvement at key customers and adding focus on sales training. Valmet has also launched 'Valmet's Way to Serve' services concept – a shift towards more unified and customer-oriented services.

Valmet is continuously improving its project management and project execution by training personnel and implementing a Valmet-wide project execution model. By focusing on improving project management and execution, Valmet is targeting continuous improvement of gross profit.

Valmet has set a long-term savings target for procurement. In order to decrease procurement costs, Valmet is focusing on design-to-cost and adding supplier involvement through supplier relationship management. Valmet has also set a target for quality cost savings and is adding focus on root cause analysis of quality deviations. Furthermore, Valmet is continuing to adopt the Lean principles and methodology.

Valmet is constantly focusing on new technologies and R&D to improve product cost competitiveness and performance. The renewal of Valmet's ERP system will increase efficiency once implemented.

Progress in sustainability

In 2021, Valmet maintained its position among the world's sustainability leaders in 2021: Valmet was included in the Dow Jones Sustainability Indices (DJSI); ranked to the top 1 percent in the Ecovadis sustainability assessment and received B rating in CDP's climate program ranking. Valmet was also awarded the Bronze Class Sustainability Award in SAM Sustainability Yearbook 2021.

During the year, Valmet continued to systematically implement the actions defined in the action plan for 2019–2021 of its Sustainability360° agenda. Valmet also renewed the agenda.

Based on the agenda renewal, new focus areas were identified and material topics for Valmets value chain were updated. The new agenda was approved by Valmet's Executive team and in 2022 Valmet will introduce the renewed agenda with action plans for the 2022–2024 time frame.

New climate program launched

As a continuation of its systematic sustainability work, Valmet introduced its climate program – Forward to a carbon neutral future – in March 2021. The program includes ambitious CO_2 emission reduction targets and concrete actions for Valmet's own operations, the supply chain, and the use of Valmet's technologies by its customers. The program is aligned with the Paris Climate Agreement's 1.5-degree pathway and the United Nations Sustainable Development Goals, and the program targets are approved by the Science Based Targets initiative (SBTi). In addition, Valmet signed a EUR 300 million syndicated revolving credit facility with a margin linked to its climate targets.

During the year, Valmet continued to develop its climate-related financial disclosures according to the Task Force on Climate-related Financial Disclosures (TCFD) reporting recommendations. In line with TCFD's recommendations, Valmet published a scenario analysis of how climate change will potentially affect its operations and business environment by 2030.

Sustainability integrated into procurement and supply chain

In 2021, Valmet continued the execution and development of its existing key processes to enhance sustainability in its supply chain. By the end of 2021, Valmet had reached its annual target by conducting 41 supplier sustainability audits in 14 countries with a certified third-party auditor. Due to the COVID-19 pandemic, Valmet also developed a remote audit framework and arranged 3 remote supplier sustainability audits. Of all corrective actions agreed with suppliers in 2021, 26 percent had been completed and verified by the end of the year.

In 2021, Valmet also continued to run its sustainability engagement program in EMEA, China and Asia Pacific and launched it in North and South America. A special focus was given to Valmet's new climate program and to the growing expectations for suppliers to transform their operations to reduce fossil emissions.

Working together continued to be a strength

Working together continued to be a clear strength for Valmet in 2021. In the second half of 2021, Valmet conducted its fifth OurVoice employee engagement survey with a response rate of 81 percent. Overall engagement and performance excellence levels remained stable when compared to previous years. The survey was renewed with a new question set, survey platform and benchmarks.

To support the different work situations across the company in 2021, a new work-life integration approach was launched, focusing on six core areas: staying connected, adapting to change, managing workload, professional growth, life goals and healthy lifestyle.

During the year, Valmet further developed managerial and leadership skills by creating a senior manager role description, introducing a leadership index as part of the OurVoice 2021 renewal and extending the training offering for managers.

Work on social impact assessment continued

In 2021, Valmet conducted a third-party evaluation of its social impact management framework, which includes a review of its social impacts management process and salient issues as well as benchmarks, analysis and developing the assessment of potential negative indirect impacts to near-by communities. The target is to ensure full alignment with United Nation's Guiding Principles on Business and Human rights.

As part of its social responsibility program, Valmet continued to support Save the Children's Child Sensitive Social Protection Project in Dungarpur, India. Valmet also continued its traditional support for non-governmental humanitarian organizations working locally in youth activities, environmental protection, and research and education.

In 2021, Valmet also conducted a survey as part of its sustainability agenda renewal to gather point of views and feedback on our sustainability work from internal and external stakeholders. The most significant topics raised were climate change and reducing CO2 emissions, energy, water, chemical and raw material efficiency of technology, and the health, safety and wellbeing of employees.

Sustainable safety development

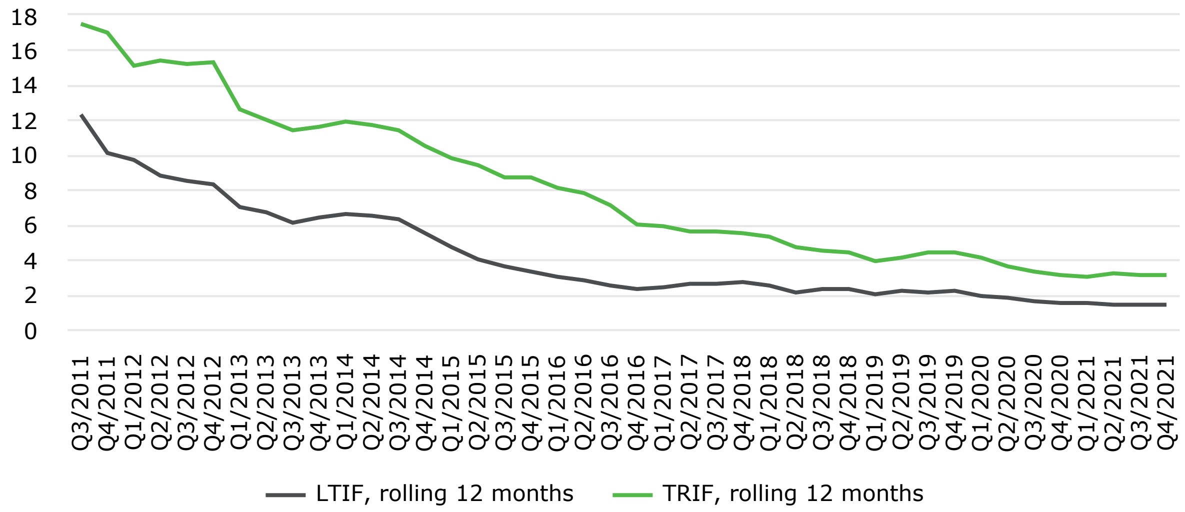
During 2021, Valmet continued its global Safety Dialogue training which achieved a completion rate of 91 percent of all Valmet's employees by the end of the year. In 2021, Valmet also implemented a lifting safety improvement program in its roll service workshops and launched a new program of Supplier HSE days in China to share good HSE practices with key manufacturing suppliers. Adoption of a new global reporting portal was active across the organization resulting in at least 33,000 HSE observations and more than 3,250 HSE walks, inspections and conversations reported in the tool by the end of the year.

In 2021, Valmet also kept up its strong efforts to keep its employees, partners and communities safe and healthy during the COVID-19 pandemic. Valmet's strict COVID-19 protocols were followed in all Valmet locations and customer sites, and Valmet partnered with global medical and security service providers to ensure travelers were kept healthy and safe while traveling to customer sites.

Valmet's lost time incident frequency rate (LTIF) for its own employees by the end of 2021 was its lowest ever at 1,4 (1.5). However, despite Valmet's efforts and progress in safety, a fatal contractor injury was reported during installation work at Valmet's customer site in India.

Valmet also launched a new global process handbook to further support harmonized ways of working and certified nine additional locations to the ISO 45001:2018 and ISO 14001:2015 standards.

Lost time incident frequency (LTIF)[1] and total recordable incident frequency (TRIF)[2], own employees



[1] LTIF reflects the number of injuries resulting in an absence of at least one work day per million hours worked.
[2] LTIF + medical treatment and restricted work cases

EU taxonomy for sustainable finance

The European Union (EU) Taxonomy Regulation requires large companies subject to the Non-Financial Reporting Directive (NFRD) to disclose the extent to which their economic activities can have a substantial positive environmental impact. These activities are referred to as taxonomy eligible. Of Valmet's 2021 net sales, 51 percent was taxonomy eligible and 49 percent non-eligible.

Lawsuits and claims

Several lawsuits, claims and disputes based on various grounds are pending against Valmet in various countries, including product liability lawsuits and claims as well as legal disputes related to Valmet’s deliveries. Valmet is also a plaintiff in several lawsuits.

Valmet announced on September 13, 2021, that the Supreme Administrative Court has partly accepted Valmet’s appeal related to the reassessment decision received by Valmet Technologies Inc concerning tax years 2010–2012. The reassessment decision concerned compensation charged by Valmet Technologies Inc from its foreign subsidiaries and based on the decision, Valmet was imposed to pay additional taxes, late payment interest and penalties in total of EUR 19 million during the first quarter 2017. The Supreme Administrative Court ruled in its decision made on September 13, 2021, that the company shall receive a refund of about EUR 4 million for additional taxes, late payment interest and penalties.

Valmet’s management does not expect to the best of its present understanding that the outcome of these lawsuits, claims and disputes will have a material adverse effect on Valmet in view of the grounds currently presented for them, provisions made, insurance coverage in force and the extent of Valmet’s total business activities.

Corporate Governance Statement and Remuneration Report

Valmet has published a separate Corporate Governance Statement and a Remuneration Report for 2020, which comply with the recommendations of the Finnish Corporate Governance Code for listed companies. These reports also cover other central areas of corporate governance, and they have been published on Valmet's website, separately from the Report of the Board of Directors, at www.valmet.com/governance.

Flagging notifications

During the review period, Valmet did not receive flagging notifications referred to in the Securities Market Act.

More information on flagging notifications can be found at www.valmet.com/flagging-notifications.

Board authorizations regarding share repurchase and share issue

Valmet Oyj's Annual General Meeting on March 23, 2021, authorized Valmet's Board of Directors to decide on the repurchase of the Company's own shares in one or several tranches. The maximum number of shares to be repurchased shall be 5,000,000 shares, which corresponds to approximately 3.3 percent of all the shares in the Company. The Company's own shares may be repurchased otherwise than in proportion to the shareholdings of the shareholders (directed repurchase). The Company's own shares may be repurchased using the unrestricted equity of the Company at a price formed on a regulated market on the stock exchange main list maintained by Nasdaq Helsinki Ltd on the date of the repurchase.

The Company's own shares may be repurchased for reasons of developing the Company's capital structure, financing or carrying out acquisitions, investments or other business transactions, or for the shares to be used in an incentive scheme, however so that a maximum of 500,000 shares may be repurchased to be used in an incentive scheme, which corresponds to approximately 0.3 percent of all the shares in the Company.

The Board of Directors decides on all other terms related to the repurchasing of the Company's own shares.

Valmet Oyj's Annual General Meeting authorized Valmet's Board of Directors to decide on the issuance of shares as well as the issuance of special rights entitling to shares pursuant to Chapter 10(1) of the Finnish Limited Liability Companies Act in one or several tranches. The issuance of shares may be carried out by offering new shares or by transferring treasury shares held by Valmet Oyj. Based on this authorization, the Board of Directors may also decide on a directed share issue in deviation from the shareholders' pre-emptive rights and on the granting of special rights subject to the conditions mentioned in the Finnish Limited Liability Companies Act.

Based on this authorization, a maximum number of 15,000,000 shares may be issued, which corresponds to approximately 10.0 percent of all the shares in Valmet Oyj. The new shares and treasury shares may be issued for consideration or without consideration.

The Board of Directors may decide on all other terms of the issuance of shares and special rights entitling to shares pursuant to Chapter 10(1) of the Finnish Limited Liability Companies Act. The Board of Directors may use this authorization, for example, for reasons of developing the Company’s capital structure, in financing or carrying out acquisitions, investments or other business transactions, or for the shares to be used in incentive schemes, however so that the Board of Directors may issue a maximum of 500,000 shares to be used in incentive schemes, which corresponds to approximately 0.3 percent of all the shares in the Company.

The authorizations shall remain in force until the close of the next Annual General Meeting, and they cancel the authorizations granted in the Annual General Meeting of June 16, 2020.

Based on the authorization granted to the Board of Directors by the Annual General Meeting, Valmet’s Board of Directors decided on September 8, 2021 on a directed share issue related to the reward payment of Valmet’s long-term share-based incentive plan for the discretionary period 2020. In the share issue on September 13, 2021, a total of 272 Valmet’s treasury shares were conveyed without consideration to the participants of the plan, in accordance with the terms and conditions of the plan.

In its meeting on December 16, 2021, Valmet's Board of Directors decided to use the authorization granted by the Annual General Meeting to repurchase the Company's own shares. Based on the authorization, the Board decided to initiate a fixed-term share buy-back program for the purpose of acquiring the Company's own shares to meet part of the obligations arising from the LTI Plans and the Restricted Pool incentive. The share acquisitions will begin at the earliest on February 7, 2022 and will end at the latest on February 25, 2022. The maximum number of shares to be acquired is 150,000. The shares will be acquired at market price in public trading on Nasdaq Helsinki Ltd.

As at December 31, 2021, Valmet’s Board of Directors had not used any other authorizations given by the Annual General meeting on March 23, 2021.

Share-based incentive plans

Valmet’s share-based incentive plans are part of the remuneration program for Valmet’s key personnel. The aim of the plans is to align the interests of the shareholders and the key employees in order to increase the value of Valmet in the long run, to steer the key employees towards achieving the Company’s selected strategic targets, to commit the key employees to the Company, and to offer them a competitive reward plan based on holding the Company's shares. Any shares to be potentially awarded are, or have been, acquired through public trading, and therefore the incentive plans have no diluting effect on the share value.

Long-term incentive plan 2018–2020

In December 2017, the Board of Directors of Valmet Oyj approved a long-term share-based incentive plan for Valmet's key employees. The plan included three performance periods, which were the calendar years 2018, 2019 and 2020. Valmet's Board of Directors decided on the performance criteria and targets in the beginning of each performance period. The plan was directed to approximately 130 participants (including Executive Team members, key employees and management talents).

Performance period	2018	2019	2020
Incentive based on	Comparable EBITA as a percentage of net sales, and orders received growth in the stable business	Comparable EBITA as a percentage of net sales, and orders received growth in the stable business	Comparable EBITA as a percentage of net sales, and orders received growth in the stable business
Reward payment	In spring 2019	In spring 2020	In spring 2021
Total gross number of shares earned (including the matching share rewards)	350,029 shares	271,428 shares	148,369 shares

In its meeting on December 17, 2020, the Board of Directors of Valmet decided to use the authorization granted by the Annual General Meeting held on June 16, 2020, to repurchase the Company's own shares. Based on the authorization, the Board decided to initiate a fixed-term share buy-back program for the purpose of acquiring the Company's own shares to meet part of the obligations arising from the LTI Plans and the Restricted Pool incentive. The share acquisitions began on February 10, 2021, and ended on February 12, 2021. The total number of shares acquired was 100,000. The shares were acquired at market price in public trading on Nasdaq Helsinki Ltd.

In the same meeting, Valmet’s Board of Directors also decided on a directed share issue related to the reward payment of Valmet’s long-term share-based incentive plan for the discretionary period 2020. In the share issue on March 15, 2021, a total of 82,375 Valmet’s treasury shares were conveyed without consideration to the participants of the plan, in accordance with the terms and conditions of the plan.

Based on the authorization granted to the Board of Directors by the Annual General Meeting, Valmet’s Board of Directors decided on September 8, 2021 on a directed share issue related to the reward payment of Valmet’s long-term share-based incentive plan for the discretionary period 2020. In the share issue on September 13, 2021, a total of 272 Valmet’s treasury shares were conveyed without consideration to the participants of the plan, in accordance with the terms and conditions of the plan.

Long-term incentive plans – Performance Share Plan and Deferred Share Plan

In its meeting on December 17, 2020, the Board of Directors of Valmet Oyj decided on new share-based long-term incentive plans, a Performance Share Plan and a Deferred Share Plan, for Valmet's key employees.

The Performance Share Plan is directed to the Executive Team members. It includes a three-year performance period parallel to a one-year performance period. Valmet's Board of Directors decides on the predefined performance measures and targets in the beginning of each performance period.

The Deferred Share Plan is directed to other key employees in management positions, and management talents. It includes a one-year performance period. The predefined performance measures and targets are decided by Valmet’s Board of Directors and are aligned with the targets of the Performance Share Plan. The Deferred Share Plan is directed to a maximum of 130 participants, of which approximately 80 are key employees in management positions, and approximately 50 are management talents.

The Performance Share Plan includes a recommendation for the members of Valmet's Executive Team to own and hold an amount of Company shares equaling their gross annual base salary (100 percent ownership recommendation). Management shareholding can be found on Valmet's website at www.valmet.com/investors/shareholders/management-shareholding.

In its meeting on December 16, 2021, Valmet's Board of Directors decided to use the authorization granted by the Annual General Meeting to repurchase the Company's own shares. Based on the authorization, the Board decided to initiate a fixed-term share buy-back program for the purpose of acquiring the Company's own shares to meet part of the obligations arising from the LTI Plans and the Restricted Pool incentive. The share acquisitions will begin at the earliest on February 7, 2022 and will end at the latest on February 25, 2022. The maximum number of shares to be acquired is 150,000. The shares will be acquired at market price in public trading on Nasdaq Helsinki Ltd.

At the end of the reporting period, the Company held 393,423 treasury shares related to the share-based incentive programs.

More information about share-based incentive plans can be found in Valmet's Remuneration Report, which is available at www.valmet.com/governance.

Resolutions of Valmet's Annual General Meeting

The Annual General Meeting 2021 was held in Helsinki on March 23, 2021. The Annual General Meeting adopted the Financial Statements for 2020 and discharged the members of the Board of Directors and the President and CEO from liability for the 2020 financial year. In respect of the approval of the Remuneration Report 2020, the majority of votes objected to the approval of the Remuneration Report. The decision is advisory. Valmet will further analyze the voting recommendations and voting results in order to ensure that the remuneration report will better meet the shareholders' expectations. The Annual General Meeting approved the Board of Directors' proposals concerning authorizing the Board to decide on repurchasing the Company's own shares and to decide on the issuance of shares and the issuance of special rights entitling to shares.

The Annual General Meeting decided to pay dividends of EUR 0.90 per share for the financial period ended on December 31, 2020.

The Annual General Meeting 2021 confirmed the number of Board members as eight and reappointed Mikael Mäkinen as Chairman of Valmet Oyj's Board and Aaro Cantell as Vice-Chairman. Pekka Kemppainen, Monika Maurer, Eriikka Söderström, Tarja Tyni and Rogério Ziviani continue as members of the Board. Per Lindberg was elected as a new Board member. The term of office of the members of the Board of Directors expires at the close of the Annual General Meeting 2022.

PricewaterhouseCoopers Oy was elected as the Company's auditor for a term expiring at the end of the next Annual General Meeting.

Valmet published a stock exchange release on March 23, 2021, concerning the resolutions of the Annual General Meeting and the organizing meeting of the Board of Directors. The stock exchange release and meeting materials can be viewed on Valmet's website at www.valmet.com/agm.

In compliance with the resolution of the Annual General Meeting, on April 7, 2021, Valmet paid out dividends of EUR 135 million, corresponding to EUR 0.90 per share.

Extraordinary General Meeting

On August 9, 2021, Valmet published a notice convening an Extraordinary General Meeting. The EGM was held on September 22, 2021. The General Meeting approved the merger of Neles Corporation into Valmet through a statutory absorption merger under the Finnish Companies Act (624/2006, as amended) in accordance with the merger plan signed by the Boards of Directors of Valmet and Neles on July 2, 2021, and approved the Merger Plan. The Merger as a whole and the resolution of the General Meeting including the resolutions concerning the amendment of the Articles of Association of Valmet, issuance of new shares in Valmet as Merger Consideration, increase of share capital of Valmet, the number of members, composition and remuneration of the Board of Directors of Valmet and the temporary deviation from the Charter of Valmet's Shareholders' Nomination Board are conditional upon and will become effective upon the registration of the execution of the Merger.

The execution of the Merger is still subject to, inter alia, obtaining necessary merger control approvals by the relevant competition authorities. The next possible date under the combination agreement for the completion to take place is April 1, 2022.

Valmet published a stock exchange release on September 22, 2021, concerning the resolutions of the EGM. The stock exchange release and meeting materials can be viewed on Valmet's website at www.valmet.com/egm.

Risks and business uncertainties

Valmet's operations are affected by various strategic, financial, operational and hazard risks. Valmet takes measures to exploit emerging opportunities and to limit the adverse effects of potential threats. The assessment of risks related to sustainable development holds an important role in risk management. If such threats materialized, they could have material adverse effects on Valmet's business, financial situation and operating result, or on the value of shares and other securities.

The objective of Valmet’s risk management is to ensure the implementation of an effective and successful strategy for achieving both long- and short-term goals. The task of Valmet’s management is to regulate risk appetite.

In assessing risks, Valmet takes into consideration the probability of the risks and their estimated impact on net sales and financial results. Valmet’s management estimates that the Company’s overall risk level is currently manageable in proportion to the scope of its operations and the practical measures available for managing these risks.

Financial uncertainty in the global economy, coupled with fluctuations in exchange rates and tightening financial market regulations, may have an adverse effect on the availability of financing from banks and capital markets and could reduce the investment appetite of Valmet’s customers. Valmet estimates that the high proportion of business derived from stable business (Services and Automation) and the geographical diversification will reduce the possible negative effects that market uncertainties may have.

If global economic growth weakens, it might have adverse effects on new projects under negotiation or on projects in the order backlog. Some projects may be postponed, suspended, or canceled. In the case of long-term delivery projects, initial customer advance payments are typically 10–30 percent of the value of the project, and customers make progress payments as the project is implemented. This significantly decreases the risks and financing requirements related to Valmet’s projects. Valmet continually assesses its customers’ creditworthiness and their ability to meet their obligations. As a rule, Valmet does not finance customer projects. If economic growth slows down significantly, the markets for Valmet’s products may shrink, which may lead to, for example, tougher price competition.

Changes and uncertainty in future regulation and legislation can also have critical effects, especially on the energy business.

Large fluctuations in energy prices can affect the global economy. These fluctuations can also affect Valmet and its customers, especially in the energy business.

Should global issues with component availability and logistics continue, it could have adverse effects on Valmet's business.

Changes in labor costs and the prices of raw materials and components can affect Valmet’s profitability. Wage inflation is continuing, but Valmet’s goal is to offset this at least partly through increased productivity and strict price discipline. It is possible, however, that tough competition in some product categories will make it difficult to pass on cost increases to product prices. On the other hand, some of Valmet’s customers are raw material producers and their ability to operate and invest may be enhanced by strengthening commodity prices and hampered by declining commodity prices.

To ensure a high level of quality in both production and services, it is important to sustain a high level of competence and talent availability. This includes, for example, maintaining efficient recruitment programs, utilization of existing talent and sharing knowledge globally.

Through acquisitions, Valmet may become exposed to risks associated with new markets and business environments. The actual acquisition process also includes risks. Other risks associated with acquisitions include, but are not limited to, integration of the acquired business, increased financial risk exposure, retention of key personnel and achieving the targets set for the acquired business.

Valmet’s operations, products and services rely largely on data networks, software and digital solutions. Any malfunctions and cyber security breaches in such networks, software and solutions as well as potential failures in information system development projects may adversely affect Valmet’s business and financial position and lead to reputational damage.

Management of project business risks important

An important part of Valmet’s business consists of project business. Pulp business projects in particular can be large, thus project-specific risk management is crucial. Key risks related to projects are project cost estimation, scheduling, project risk management, quality and performance risks, and materials management risks. Risk analysis shall, as a minimum, take place for all significant project quotations. The work concerning threat and opportunity assessment continues during the execution phase of the project. Risk management is based on careful planning and continuous, systematic monitoring and evaluation. Project risks are managed by improving and continuously developing project management processes and the related systems.

There may be changes in the competitive situation of Valmet’s individual businesses, such as the emergence of new, cost-effective competition in the markets. Valmet can safeguard its market position by developing its products and services, and through good customer service and local presence.

Availability of financing crucial

Securing the continuity of Valmet’s operations requires sufficient available funding under all circumstances. Valmet estimates that its liquid cash assets and committed credit limits are sufficient to secure its immediate liquidity and to ensure the flexibility of financing. The average maturity of Valmet’s non-current debt, excluding lease liabilities, is 4.2 years. Loan facilities include customary covenants, and Valmet is in clear compliance with the covenants at the balance sheet date.

Net working capital and capital expenditure levels have a key impact on the adequacy of Valmet’s financing. Setting aside investments into the renewal of the ERP system, Valmet does not expect any significant increase in annual capital expenditure and estimates that it is well-positioned to keep capital expenditure approximately at the level of total depreciation.

Of the financial risks that affect Valmet’s profit, currency exchange rate risks are among the most substantial. Exchange rate changes can affect Valmet’s business, although the wide geographical scope of the Company’s operations reduces the impact of any individual currency. Economic insecurity typically increases exchange rate fluctuations. Valmet hedges its currency exposures linked to firm delivery and purchase agreements.

Changes in legislation and the way authorities interpret regulation, for example regarding taxation, can also have an impact on Valmet’s financials.

As at December 31, 2021, Valmet had EUR 730 million (EUR 711 million) of goodwill on its statement of financial position. Valmet assesses the carrying value of its goodwill for impairment annually, or more frequently if facts and circumstances indicate that carrying value may not be recoverable. Valmet has not identified any indications of impairment during the reporting period. The principles used for impairment testing are presented in the Financial Statements.

The COVID-19 pandemic

Depending on the success in suppressing the COVID-19 pandemic and in case the outbreak will be further prolonged, there could be further adverse impact on Valmet's operations, customer investment activity, project deliveries, supply chain and availability of financing for both Valmet and its customers.

Epidemic outbreaks and potential other pandemics remain a risk to Valmet's operations also after COVID-19. Pandemics might have impact on the supply chain and business operations by increasing the likelihood of interruptions. Valmet's operations are dispersed all around the world, Valmet has a global customer base and our suppliers operate in several countries. This mitigates the overall impacts of risks to Valmet, should there be any disruptions in some isolated country or case.

Valmet currently has a solid order backlog, strong balance sheet and liquidity coupled with a flexible organization, and a structured way to operate in changing circumstances. This will support Valmet in mitigating the global challenges caused by COVID-19 and other pandemics. Valmet has also a Global Incident Management Team (IMT), and regional IMT structure established to manage Valmet's response to pandemics.

Events after the reporting period

There have been no subsequent events after the review period that required recognition or disclosure.

Guidance for 2022

Valmet estimates that net sales in 2022 will increase in comparison with 2021 (EUR 3,935 million) and Comparable EBITA in 2022 will increase in comparison with 2021 (EUR 429 million).

Market outlook

General economic outlook according to IMF

The global economy enters 2022 in a weaker position than previously expected. As the new Omicron COVID-19 variant spreads, countries have reimposed mobility restrictions. Rising energy prices and supply disruptions have resulted in higher and more broad-based inflation than anticipated.

IMF expects global growth to moderate from 5.9 in 2021 to 4.4 percent in 2022 and to 3.8 percent in 2023. The forecast is conditional on adverse health outcomes declining to low levels in most countries by end-2022, assuming vaccination rates improve worldwide and therapies become more effective. Risks to the global baseline are tilted to the downside.

(IMF World Economic Outlook, January 25, 2022)

Short-term market outlook

Valmet estimates that the short-term market outlook for energy has improved to satisfactory (previously weak). Valmet reiterates the good short-term market outlook for services, automation, pulp, and board and paper, and the satisfactory market outlook for tissue.

The short-term market outlook is given for the next six months from the end of the reported period. It is based on customer activity (50%) and Valmet's capacity utilization (50%), and the scale is 'weak–satisfactory–good'.

Board of Director's proposal for the distribution of profit

Valmet Oyj's distributable funds on December 31, 2021, totaled EUR 1,270,405,789.12 of which the net profit for 2021 was EUR 177,417,747.78 (according to Finnish Generally Accepted Accounting Standards).

The Board of Directors proposes that a dividend of EUR 1.20 per share be paid based on the statement of financial position to be adopted for the financial year which ended December 31, 2021, and that the remaining part of the profit be retained and carried further in the Company's unrestricted equity.

The dividend will be paid to shareholders who on the dividend record date March 24, 2022, are registered in the Company's shareholders' register held by Euroclear Finland Ltd. The dividend will be paid on March 31, 2022. All the shares in the Company are entitled to a dividend except for treasury shares held by the Company on the dividend record date.

In Espoo on February 3, 2022

Basis of preparation

General information

Valmet Oyj (the "Company" or the "parent company") and its subsidiaries (together "Valmet", "Valmet Group" or the "Group") form a global developer and supplier of technologies, automation and services for the pulp, paper and energy industries.

Valmet Oyj is domiciled in Helsinki, and its registered address is Keilasatama 5, 02150 Espoo, Finland. The Company's shares are listed on Nasdaq Helsinki Ltd.

These condensed consolidated interim financial statements were approved for issue on February 3, 2022.

Basis of presentation

These condensed consolidated interim financial statements for the twelve months ended December 31, 2021, have been prepared in accordance with IAS 34 – Interim financial reporting and in conformity with IFRS as adopted by the European Union. The financial information presented in these condensed consolidated interim financial statements has not been audited. These condensed consolidated interim financial statements should be read in conjunction with the Group's annual consolidated financial statements for the year ended December 31, 2020, which have been prepared in accordance with IFRS.

Valmet Group has applied new standards and interpretations published by IASB that are effective for the first time for financial reporting periods commencing on January 1, 2021. These standards and interpretations did not have a material impact on the results or financial position of the Group, or the presentation of these condensed consolidated interim financial statements.

Except for the above, the accounting policies applied in the preparation of these condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2020.

In these condensed consolidated interim financial statements, the figures are presented in million euros subject to rounding, which may cause some rounding inaccuracies in aggregate column and row totals.

Business combinations

Acquisition of PMP Group

The acquisition of PMP Group in Poland, announced on September 11, 2020, was completed on October 1, 2020. The business combination accounting for the acquisition of PMP Group was finalized on June 30, 2021. During the six months ended June 30, 2021, there were no material changes made to the provisional amounts recognized as at December 31, 2020.

Acquisitions of EWK Umwelttechnik and ECP Group

On July 1, 2021, Valmet completed the acquisition of EWK Umwelttechnik GmbH. EWK Umwelttechnik is a German company manufacturing and supplying air emission control systems and after-installation services. The net sales of EWK Umwelttechnik were approximately EUR 22 million in 2020. The company employs approximately 50 employees mainly in Kaiserslautern, Germany. The acquired business has been consolidated into the Group financials from the acquisition date onwards.

On July 1, 2021, Valmet completed the acquisition of ECP Group Oy. ECP Group is a manufacturer and maintainer of electrostatic precipitators (ESP), focusing on power plants and pulp and paper industry, in Finland. The net sales of ECP Group were approximately EUR 6 million in 2020. The company, founded in 2002, is headquartered in Vantaa, Finland, and employs around 20 employees. The acquired business has been consolidated into the Group financials from the acquisition date onwards.

The acquisitions of EWK Umwelttechnik and ECP Group did not, individually or in aggregate, have a material impact on the results or financial position of Valmet, or its financial reporting for the twelve months ended December 31, 2021.

Reporting segments and geographic information

The Group's Chief Operating Decision Maker (CODM) is the President and CEO of Valmet. Valmet's four business lines are highly integrated through complementing product and service offerings and joint customer projects. Thus, the operations and profitability of Valmet is reported as a single reportable segment with the key operative decisions being made by the CODM at the Valmet Group level.

The performance of the Group is reviewed by the CODM. One key indicator of performance reviewed is Earnings before interest, taxes and amortization (EBITA). Performance is also assessed through Comparable EBITA, i.e., with EBITA excluding certain items of income and expense that reduce the comparability of the Group's performance from one period to another. The alternative performance measures of EBITA and Comparable EBITA are published by Valmet as part of regulated financial information to enable users of the financial information to prepare more meaningful analysis on Valmet's performance. Items affecting comparability consist of income and expenses arising from activities that amend the capacity of Valmet's operations, such as restructuring costs, and gains or losses on sale of businesses or non-current assets, and income and expenses incurred outside Valmet's normal course of business, such as impairment charges and income and expenses recorded as a result of settlement payments to/from third parties (e.g., penalties incurred as a result of tax audits or settlements to closed law suits) as well as income and expenses arising from changes in legislation expected to affect Valmet temporarily only (e.g., customs or other tariffs imposed by authorities on Valmet's products).

Entity-wide information

Valmet has operations globally in over 35 countries. Measured by net sales, the top three countries in 2021 were China, the USA and Finland, which together accounted for 46 percent of total net sales. In 2020, the top three countries were the USA, China and Brazil, which together accounted for 38 percent of total net sales. Net sales for Finland (the country of domicile) amounted EUR 434 million in 2021 (EUR 362 million).

Net sales by destination:

2021: EUR 3,935 million

2020: EUR 3,740 million

EUR million	North America	South America	EMEA	China	Asia-Pacific	Total
2021	**4**	**1**	**83**	**7**	**1**	**97**
2020	4	2	72	9	2	89

Revenue

Valmet's revenue is reported on and monitored by management in both business line and area dimension. Paper, and Pulp and Energy business lines' revenue is derived from large long-term capital projects, for which revenue is mostly recognized over time based on the cost-to-cost method. Service business line's revenue arises from large volume of short-term contracts with relatively low individual value, for which revenue is mainly recognized at a point in time. Automation business line's revenue consists of long-term contracts and short-term service contracts. The nature of long-term contracts, and therefore also the revenue recognition method, is similar to capital projects although with average contract values being lower. Revenue for short-term service contracts is recognized at a point in time. Nature of revenue in each area in any given reporting period is driven by volume and size of ongoing capital projects.

Net sales by business lines:

EUR million	Q4/2021	Q4/2020	2021	2020
Services	**415**	402	**1,366**	1,327

Paper	**345**	362	**1,195**	1,076
Total	**1,199**	1,167	**3,935**	3,740

Timing of revenue recognition:

EUR million	Q4/2021	Q4/2020	2021	2020
Performance obligations satisfied at a point in time	**539**	487	**1,682**	1,586
Performance obligations satisfied over time	**660**	681	**2,253**	2,154
Total	**1,199**	1,167	**3,935**	3,740

In order to mitigate credit risk and compensate for contract costs incurred upfront, Valmet regularly requires advance payments from its customers. During the reporting period Valmet had not entered into any material contracts where the period between when Valmet transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or more. Neither were there any ongoing projects from previous reporting periods for which the former would apply.

The creditworthiness of a customer is verified before entering into a contract. However, if a risk of non-payment arises after contract inception, the probability of collection of consideration is re-evaluated and if assessed improbable, recognition of revenue is discontinued. An allowance for non-collectability of open receivables and contract assets is established as concluded appropriate.

Valmet receives payments from customers based on invoicing schedules as set out in the customer contracts. Changes in contract assets and liabilities are due to Valmet's performance under the contracts. Amounts due from customers under revenue contracts primarily relate to Valmet's right to consideration for work completed but not yet invoiced at the reporting date. These assets are transferred to trade receivables when right to consideration becomes unconditional, which is typically at the time when Valmet has contractual right to issue an invoice. Significant part of amounts due to customers relate to advance consideration received from customers in long-term capital contracts for which revenue is recognized over time. These amounts are recognized as revenue as (or when) Valmet performs under the contracts.

Following tables provide specification of movements in amounts due from customers under revenue contracts and amounts due to customers under revenue contracts over the reporting period. Revenue recognized in the period also includes revenue recognized related to performance obligations satisfied in previous periods, the amount of which however is insignificant.

Amounts due from customers under revenue contracts:

Point in time	**349**	308
Over time	**913**	694
Carrying value at end of the period	**1,263**	1,002

Valmet typically issues contractual product warranties under which it guarantees the mechanical functioning of equipment delivered during the agreed warranty period. Valmet does not issue service-type warranties.

As at December 31, 2021, Valmet had no costs to obtain or fulfill contracts capitalized under IFRS 15.

The aggregate amount of transaction price allocated to unsatisfied or partially satisfied performance obligations as at December 31, 2021, was EUR 4,096 million (EUR 3,257 million).

Net working capital

Valmet's net working capital is typically negative due to advance payments received from customers related to long-term capital projects. Net working capital does not include non-operative items such as taxes, interest-bearing assets and liabilities, or other items related to funding of the Group's operations.

Investments in associated companies

Valmet acquired 29.5 percent of Neles' shares and voting rights during July–September 2020. There has been no change in Valmet's ownership since September 30, 2020.

Valmet's and Neles' financial statements are coterminous, but as Neles publishes its interim reports at or near the same time as Valmet, Valmet's share of Neles' results are accounted for with a lag of one quarter. Valmet's condensed consolidated interim financial statements for the twelve months ended September 30, 2021, include Valmet's share of Neles' fourth-quarter 2020 and first, second and third quarter 2021 results, amounting to EUR 15 million.

Valmet had no material transactions with Neles or its other associated companies in the twelve months ended December 31, 2021, or material receivables or liabilities as at December 31, 2021.

For those financial assets and liabilities, which have been recognized at fair value in the Consolidated statement of financial position, the measurement hierarchy and valuation methods described below have been applied.

Level 1

Quoted unadjusted prices at reporting date in active markets. Valmet level 1 financial instruments include equity investments classified as financial assets at fair value through other comprehensive income.

Level 2

The fair value of financial instruments in Level 2 is determined using valuation techniques. These techniques utilize observable market data readily and regularly available. Valmet level 2 financial instruments include over-the-counter (OTC) derivatives classified as financial assets and liabilities at fair value through profit or loss or derivatives qualified for hedge accounting and all other financial assets and liabilities except for equity investments.

Level 3

A financial instrument is categorized into Level 3 if the calculation of the fair value cannot be based on observable market data. Valmet level 3 financial instruments include equity investments classified as financial assets at fair value through profit or loss.

Average number of outstanding shares	**149,467,939**	149,499,114
Average number of diluted shares	**149,467,939**	149,499,114
Interest-bearing liabilities at end of period, EUR million	**477**	497
Net interest-bearing liabilities at end of period, EUR million	**-88**	149

Formulas for calculation of indicators

In addition to financial performance indicators as defined by IFRS, Valmet publishes certain other widely used measures of performance that can be derived from figures in the Consolidated statement of income and Consolidated statement of financial position, as well as notes thereto. The formulas for calculation of these alternative performance measures are presented below.

EBITA:
Operating profit + amortization

Comparable EBITA[1]:
Operating profit + amortization +/- items affecting comparability

Earnings per share:

$$\frac{\text{Profit attributable to shareholders of the Company}}{\text{Average number of shares outstanding during period}}$$

Earnings per share, diluted:

$$\frac{\text{Profit attributable to shareholders of the Company}}{\text{Average number of diluted shares during period}}$$

Equity per share:

$$\frac{\text{Equity attributable to owners of the parent}}{\text{Number of outstanding shares at end of period}}$$

Return on equity (ROE), % (annualized):

$$\frac{\text{Profit for the period}}{\text{Total equity (average for period)}} \times 100$$

Return on capital employed (ROCE) before taxes, % (annualized):

$$\frac{\text{Profit before taxes + interest and other financial expenses}}{\text{Balance sheet total - non-interest-bearing liabilities (average for period)}} \times 100$$

Comparable return on capital employed (ROCE) before taxes, %[1] (annualized):

$$\frac{\text{Profit before taxes + interest and other financial expenses +/- items affecting comparability}}{\text{Balance sheet total - non-interest-bearing liabilities (average for the period)}} \times 100$$

Equity to assets ratio, %:

$$\frac{\text{Total equity}}{\text{Balance sheet total - amounts due to customers under revenue contracts}} \times 100$$

Gearing, %:

$$\frac{\text{Net interest-bearing liabilities}}{\text{Total equity}} \times 100$$

Net interest-bearing liabilities:
Non-current interest-bearing debt + non-current lease liabilities + current interest-bearing debt + current lease liabilities - cash and cash equivalents - other interest-bearing assets

[1]*Measure of performance also calculated on a rolling 12-month basis.*

Quarterly information

EUR million	**Q4/2021**	Q3/2021	Q2/2021	Q1/2021	Q4/2020
